Gashes His Throat on the Second Day of Married Life.

A Brooklyn Man Ends His Life

who has been married only thirty-six hours, and who lives at 1773 First avenue, attempted suicide by cutting his throat

with a caseknife early this morning. Alfers has been employed as driver for Lord & Taylor for the past twelve years. Several years ago he met Georgia Sweeney, of Brooklyn. He became attentive to her, and a few months ago their engagement was announced.

Miss Sweeney is an orphan, just past dian. She inherited some money from legacy was put in trust, and she was allowed to draw only what was neces-

sary for her support. Alfers pressed the girl to marry him, and she persuaded her uncle to let her have enough money to furnish a flat. The top flat in the Linden apartment-

have enough money to furnish a flat. The top flat in the Linden apartmenthouse at 1773 First avenue was accordingly furnished and the couple were married last Saturday night.

Alfers had been addicted to drink, but Miss Sweeney condoned the habit, thinking that after marriage she could reform him. Yesterday morning Alfers asked his wife to draw some more money from her uncle. She told him she could not and a quarrel ensued. In his anger Alfers said: "I am sorry I married."

Later in the day he became morose and despondent. The couple retired at 5 o'clock last evening. At 5.30 o'clock this morning the young bride called to her husband to get up. She received no response, and, looking closely at him, have blood or his face. He had drawn the bed citates about his chin.

She drew the covers back and dispovered that his throat was gashed in three places and that he was bleeding. Two case-knives and a pocket-knife, all stained with blood, were found on the bureau.

Alfers had evidently stood before the glass while cutting his throat. After gashing himself, he went back to bed, leaving a trail of blood on the floor. He was taken to Presbyterian Hospital, where it is said he may recover.

was complete, however. Mr. Battle was much affected when the news of his friend's suicide reached him. He had not seen McCormack in several years.

Arriving at his office this morning Mr. Battle found the Charleston telegram lying on his desk. He immediately viewed the body.

"McCormack was about thirty-five years old," said Mr. Battle, and at college gave promise of a bright future. He was graduated from the University of Virginia in 1888, and went home to his wealthy father with as auspicious a future before him as could well be asked or hope for. Later he married an estimable young woman.

"I did not know that he was in the city, and when I received the telegram I was completely taken by surprise.

TRIED SUICIDE THRICE.

Mrs. Radehan's Repeated Efforts to Kill Herself Fall.

Mrs. Bertha Radehan, thirty-two years old, wife of Ernest Radehan, of 356 East children from diphtheria within ten days.

Last February Mrs. Radehan lost two children from diphtheria within ten days. Grief from the loss of her children affected her mind.

She of late made frequent attempts to kill herself, but was baffled by the careful watch of her husband. This morning, however, she eluded him and went to Huberche's drug store. Eighty-first street and First avenue. She bought a bottle of carbolic acid, which she said she would use to clean beds. She at once raised it to her lips, but was prevented from swallowing it by the druggist, who snatched it from her.

Later in the day she went to another druggist to buy some poison, but he refused to sell it to her.

The third time she left the house was at 11 o'clock. She said she was going for groceries. Fifteen minutes later she returned with groceries. She dressed herself in the mourning which she wore for her children and kneeled in the kitchen to pray. A few minutes later her husband heard a scream. He ran to the kitchen and found his wife lying on the floor. She had evidently concealed a hottle of carbolic acid about her person. Her lips were burned.

An ambulance was summoned, and Mrs. Radehan was taken to the Presbyterian Hospital. It was stated there that she would recover.
